

KNOW YOUR COLLABORATOR

Best Practices for Fostering Safe International Collaborations

International collaborations are a foundational component of Emory's research profile

Foreign actors seek to unfairly benefit from U.S. advances in science and technology

To continue Emory's tradition of international collaboration and academic freedom, we've adopted processes to safeguard research.

Here's what you can do to safely build international collaboration

PARTNER

- Verify the person and institution
- Understand their motivation and mutual benefits
- Talk to them via video-conference

PREPARE

- Disclose conflicts of commitment
- Disclose conflicts of interest
- Practice cyber hygiene
- Do not share unpublished information

ASK

- Involve your Deans and Dept Chair
- Request tailored guidance on how to proceed
- Contact InternationalCollaborations@Emory.edu
